

Martins F. Olumide

+2349061322407 | dev.as.martins3@gmail.com | Lagos, Nigeria

EDUCATION

The University Of Lagos

Expected 07/2027

Bachelor Of Science in Applied Mathematics(with computer science)

PROJECTS

BrainBox

- A Quiz app that listens, records and award points to the fastest problem solver, where each problem solvers are in groups (or just a single person).
- The project isn't that complex so I used SQLITE3 for the database, Express.js and Nodejs for the backend, and Vue.js for the frontend using the CDN

TribeTalk

- A social media app that connects people all around the world. Project came first as a MVP of my presentation app for my ALX Software Engineering Program final project (initially was named Twilights). Reimagined, and built upon the MVP and also migrated the database from SQLITE3 to finally POSTGRES.
- **Frontend:** Astro (with React & Vue), TypeScript, Tanstack (& native fetch api); **Backend:** Nodejs (expressjs, typescript, util modules); **Database:** Postgres (Prisma ORM); **3rd Service App:** Cloudinary, Bitbucket.

EXPERIENCE

Software Engineering Intern

12/2023 – 02/2024

@Tublain | Open source | Remote

- Actively contributed and collaborated with other software engineers on the development of world class applications and softwares.
- I identified and addressed key issues critical for enhancing the effectiveness and performance of our application.

Web developer (Volunteer)

@Evelyn Stitches | Fashion | Lagos, Nigeria

- Superheaded the creation of scalable website infrastructure, enabling it to handle increased traffic and products offering with ease.
- Developed **software skills** like Test Driven Development, and attention to details

Student @ALX Software Engineering Program

04/2022 – 11/2023

SKILLS

Frontend – JavaScript TypeScript, CSS, HTML5, CSS3.

Backend – JavaScript (Nodejs, Expressjs), TypeScript, Python(Flask).

Database – MySql, Postgresql, Sqlite3, MongoDB

FrameWorks – Reactjs, Vuejs, Astro, TailwindCSS, SCSS, Bootstrap, UI Components, Less, Expressjs, Fastify

Tools – Prisma, Sequelize, Cloudinary, BitBucket, Github, Git, Vscod, Windows, SSH.

Social – Commitment, Focus, Fun,

Technical – Attention to details, Focus, Problem Solving

ACHIEVEMENTS – ALX Software Engineering Program (12 months), Andela React Learning Program (pluralsight).
